1. The following is an examiner's statement of reasons for allowance:

The prior art fails to teach and or suggest a mixing devices disposed within a reactor, the mixing device which provides a flow path for a combined liquid/vapor flow between an inlet and outlet, in which a flow dividing structure is placed which divides the combined flow into first and second stream; wherein the first mixing orifice is located downstream for the flow dividing structure and wherein substantially the entire combined liquid/vapor flow is constrained to flow through both mixing orifices. The structure of the orifice and flow dividing structure as claimed has not been taught, the construction and arrangement permits that the entire combined flow of liquid and vapor flows through each of the first and second mixing orifices.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
